## OBJECTIVE

---

Enthusiastic and highly motivated Computer Science Student seeking an entry-level position to apply my programming skills and knowledge of software development. I am interested in exploring different things.

## EDUCATION

---

<b>B.tech in computer science - AIML</b> Kalasalingam Academy of Research and Education <i>CGPA: 7.58</i>	Virudhunagar 2022 - present
<b>Intermediate</b> chaitanya Jr College <i>Percentage: 88.3%</i>	Guntur 2020 - 2022
<b>SSC</b> ABC high school <i>GPA: 9.8</i>	Thalluru 2019 - 2020

## SKILLS

---

Programming Languages:	Python, Java
Databases:	MySql
Web Technologies:	Html, Css
Tools / Platforms:	Github, vscode
Soft Skills:	problem-solving , Decision Making , Communication

## PROJECTS

---

<b>Rainfall Prediction:   <a href="#">Link</a></b>	<i>Python, Scikit-learn, Power BI</i>
Developed a rainfall prediction model using weather data from Austin, TX. Evaluated models like Linear Regression, Random Forest, and SVR using RMSE and MAE. Built a Power BI dashboard to visualize precipitation trends and relationships with humidity, temperature, and visibility.	
<b>Ipl Score Prediction:   <a href="#">Link</a></b>	<i>Flask, Scikit-learn, HTML/CSS</i>
Built a Flask web application to predict IPL match scores based on user inputs like current runs, overs, wickets, and run rate. Trained a Random Forest Regressor on historical IPL data and deployed the model with a user-friendly frontend interface.	

## CERTIFICATIONS
